

# Implementing a Learning Management System to Maximize caBIG™ Training Benefits

caBIG™ cancer Biomedical Informatics Grid™

an initiative of the National Cancer Institute

The mission of the Training Workspace is to ensure widespread adoption, dissemination, and use of caBIG™ interoperable tools, standards, and data sets within the larger cancer and biomedical communities. Our primary goal is to **support the creation and dissemination of documentation and training materials for caBIG™-related projects and participants.**

## caBIG™ Learning Management System (LMS) <http://cabigtraining.nci.nih.gov>

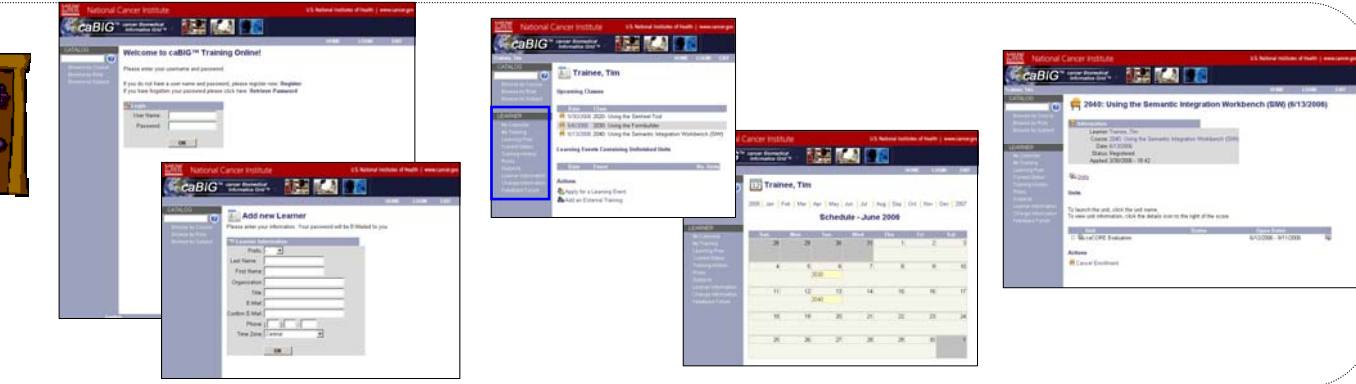

### Catalog

Central Training Repository  
 Courses, class schedules,  
 job roles, programs

### Self-Service

Web Interface  
 Registration, training plans, class work, automated communication

### Control

Tools, Reports, and Security  
 Attendance, exams, evaluations  
 Queries, reports, charts  
 Compliant with FDA Regulations
