

Unwrapping Drupal

a new site for a new year

Stuart Holland, Web Consultant
Ann Yoders, Project Manager

Meet the Presenter

Stuart Holland
Web Consultant

- 7+ years of experience
- Over 3 years working with Drupal
- Lover of four-legged animals big and small

Agenda

Topics for today's session:

- Why Drupal
- Key skills for success
- Speaking Drupalese
- Exploring what comes with a fresh install
- Enhancing the core Install
- Other organizations employing Drupal

Poll: What drives your interest in Drupal?

- Poll will appear for about a minute
- Results will be shared with everyone
- No obligation to answer

What Makes Drupal Different

- **Open Source**
 - Free to download
 - Code open to world
- **Culture**
 - Supporting Open Source software
 - Strong community
- **Functionality**
 - Available features
- **Openness**
 - Ability to customize
 - Use of content
- **Proven**
 - Major sites are powered by Drupal

Price vs. Cost

- “Purchase” Price
- Initial Setup
- Customization
- Maintenance & Support
- Upgrades

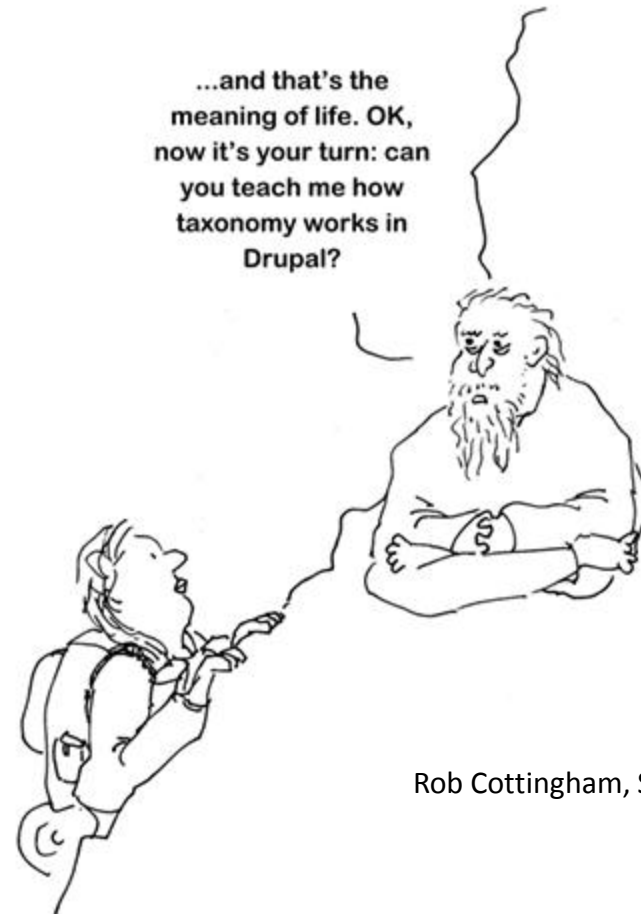

Key Skills for Success

- Understanding how open source software works
 - Price vs. cost
 - Updates
- Willingness to learn!
 - Drupal works differently from other systems
- Job Roles
 - Graphic Designer
 - Information Architect
 - Usability Engineer
 - Web Designer
 - PHP Developer
 - Project Manager

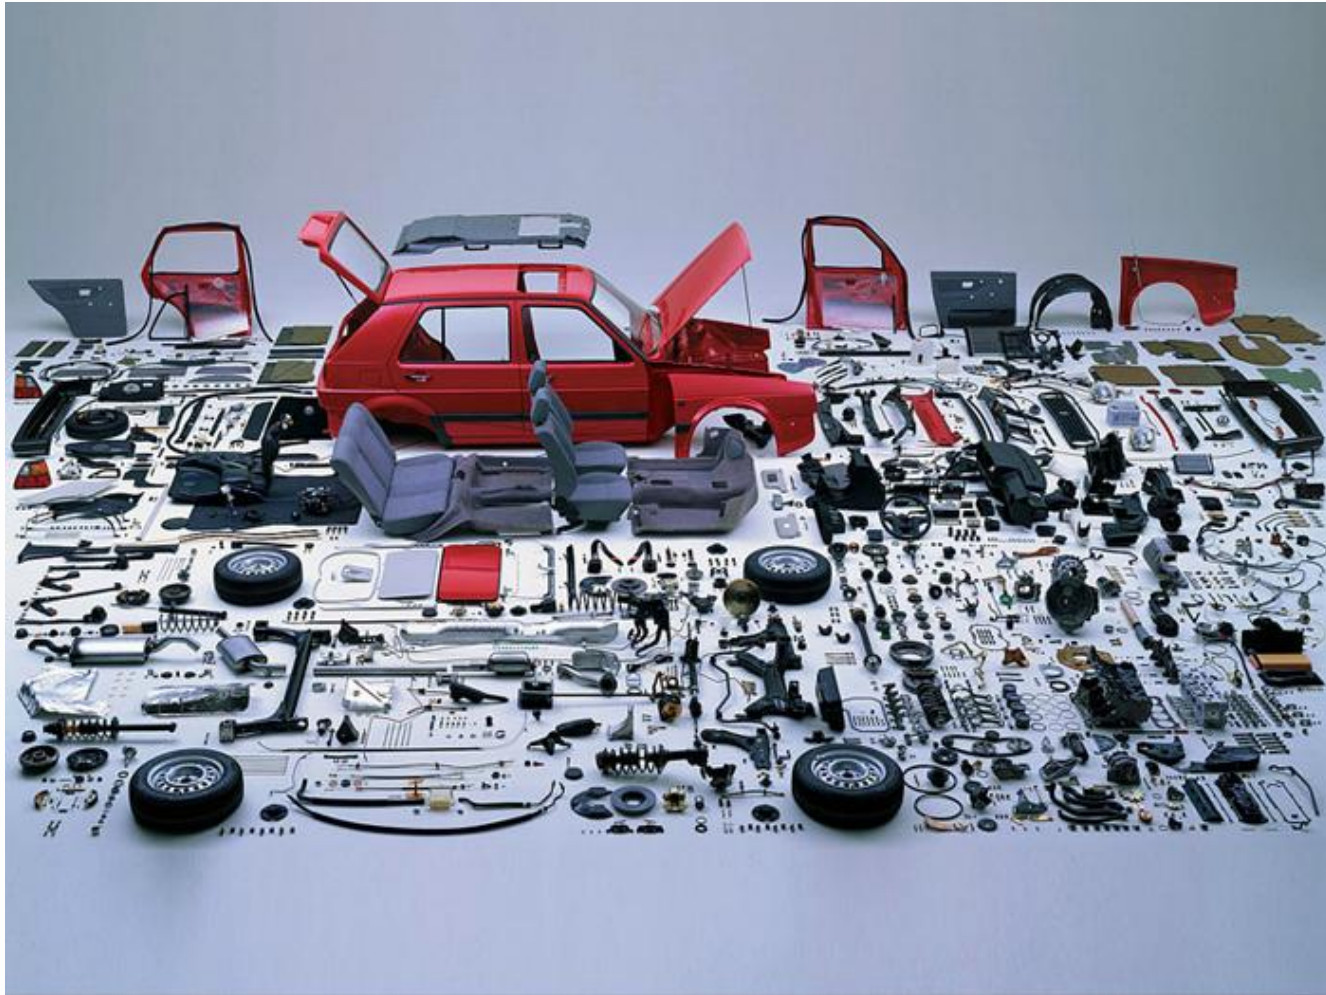

Speaking Drupalese

- Module
- Node
- Block
- Content Type
- View
- Taxonomy
- Template
- Theme

Rob Cottingham, Social Signal

So What Do You Get Out of the Box?

Default Installation - Install Screen

Welcome to your new Drupal website!

Please follow these steps to set up and start using your website:

1. Configure your website

Once logged in, visit the [administration section](#), where you can [customize and configure](#) all aspects of your website.

2. Enable additional functionality

Next, visit the [module list](#) and enable features which suit your specific needs. You can find additional modules in the [Drupal modules download section](#).

3. Customize your website design

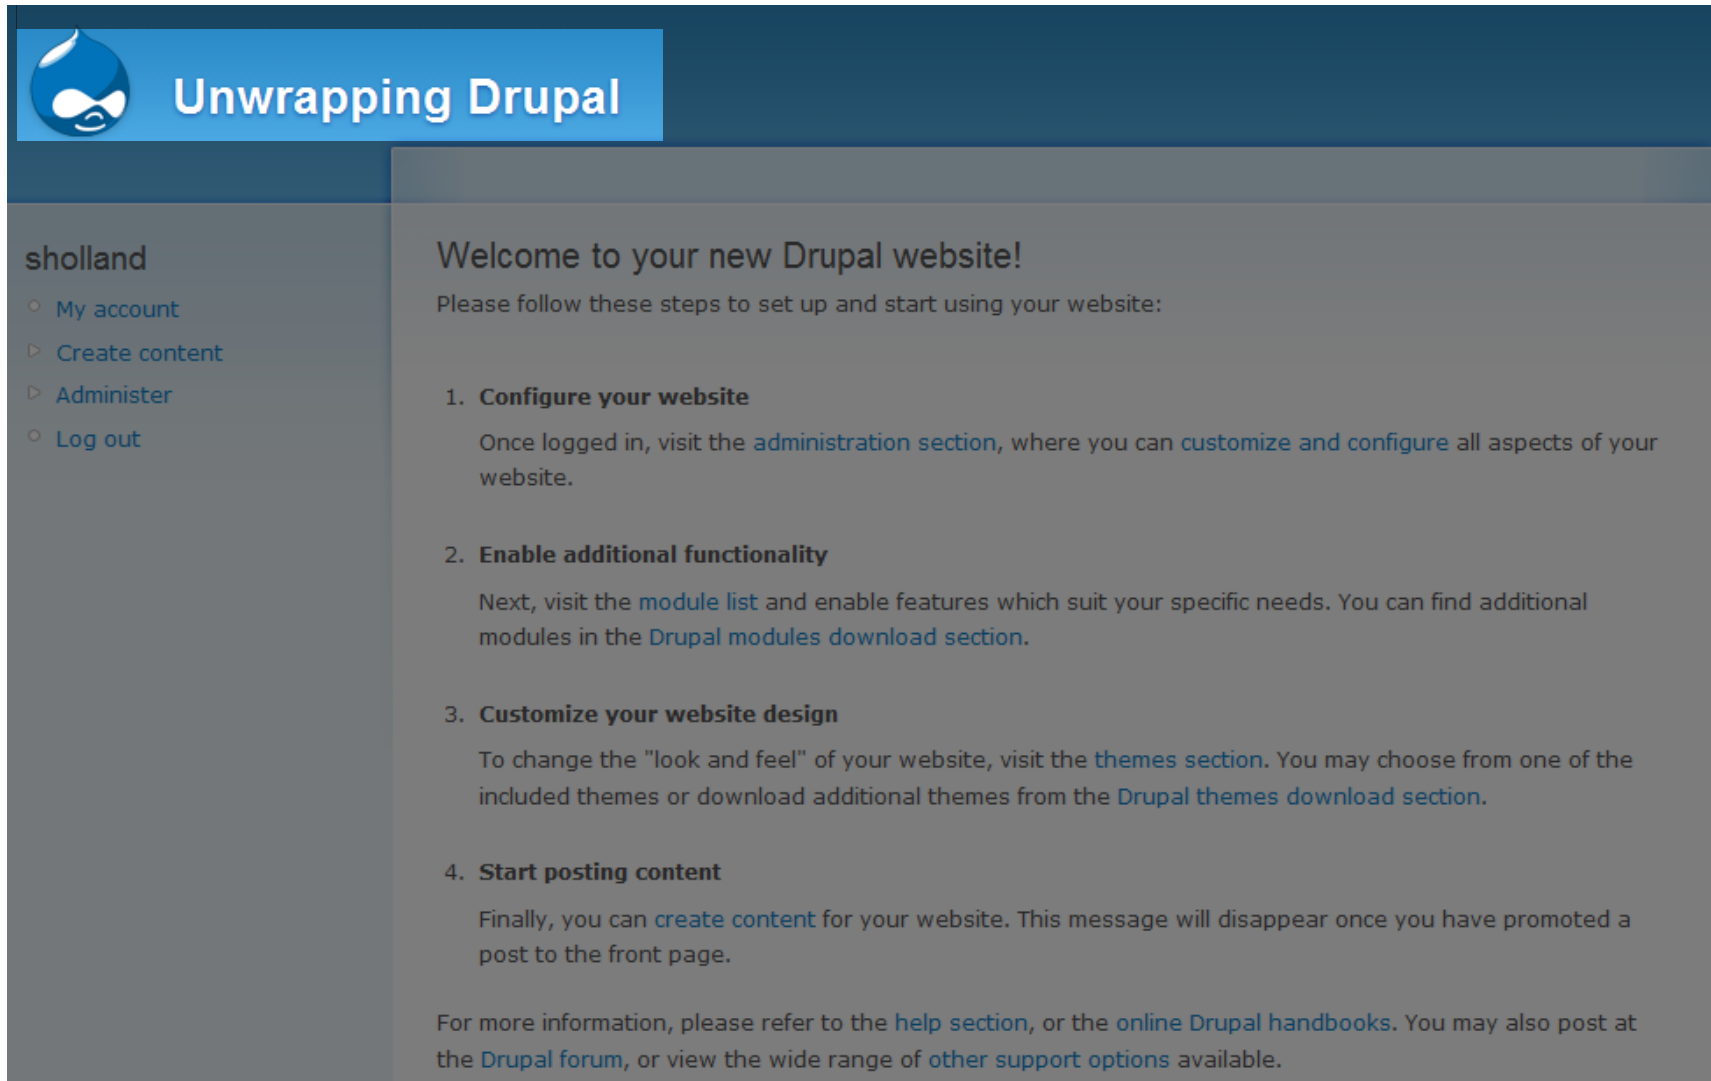

To change the "look and feel" of your website, visit the [themes section](#). You may choose from one of the included themes or download additional themes from the [Drupal themes download section](#).

4. Start posting content

Finally, you can [create content](#) for your website. This message will disappear once you have promoted a post to the front page.

For more information, please refer to the [help section](#), or the [online Drupal handbooks](#). You may also post at the [Drupal forum](#), or view the wide range of [other support options](#) available.

Default Installation - Initial Homepage

The screenshot shows the Drupal initial homepage. At the top left is the Drupal logo (a blue water drop) and the text "Unwrapping Drupal" in white on a blue background. Below this is a dark grey sidebar with the username "sholland" and a list of links: "My account", "Create content", "Administer", and "Log out". The main content area is light grey and contains a welcome message, a list of four numbered steps for setting up the website, and a final paragraph with links to help and support resources.

RSS publishing

Configure the number of items per feed and whether feeds should be titles/teasers/full-text.

Taxonomy

Manage tagging, categorization, and classification of your content.

User management

Manage your site's users, groups and access to site features.

Access rules

List and create rules to disallow usernames, e-mail addresses, and IP addresses.

Permissions

Determine access to features by selecting permissions for roles.

Roles

List, edit, or add user roles.

User settings

Configure default behavior of users, including registration requirements, e-mails, and user pictures.

Users

List, add, and edit users.

Reports

View reports from system logs and other status information.

Recent log entries

View events that have recently been

Site configuration

Adjust basic site configuration options.

Actions

Manage the actions defined for your site.

Administration theme

Settings for how your administrative pages should look.

Clean URLs

Enable or disable clean URLs for your site.

Date and time

Settings for how Drupal displays date and time, as well as the system's default timezone.

Error reporting

Control how Drupal deals with errors including 403/404 errors as well as PHP error reporting.

File system

Tell Drupal where to store uploaded files and how they are accessed.

Image toolkit

Choose which image toolkit to use if you have installed optional toolkits.

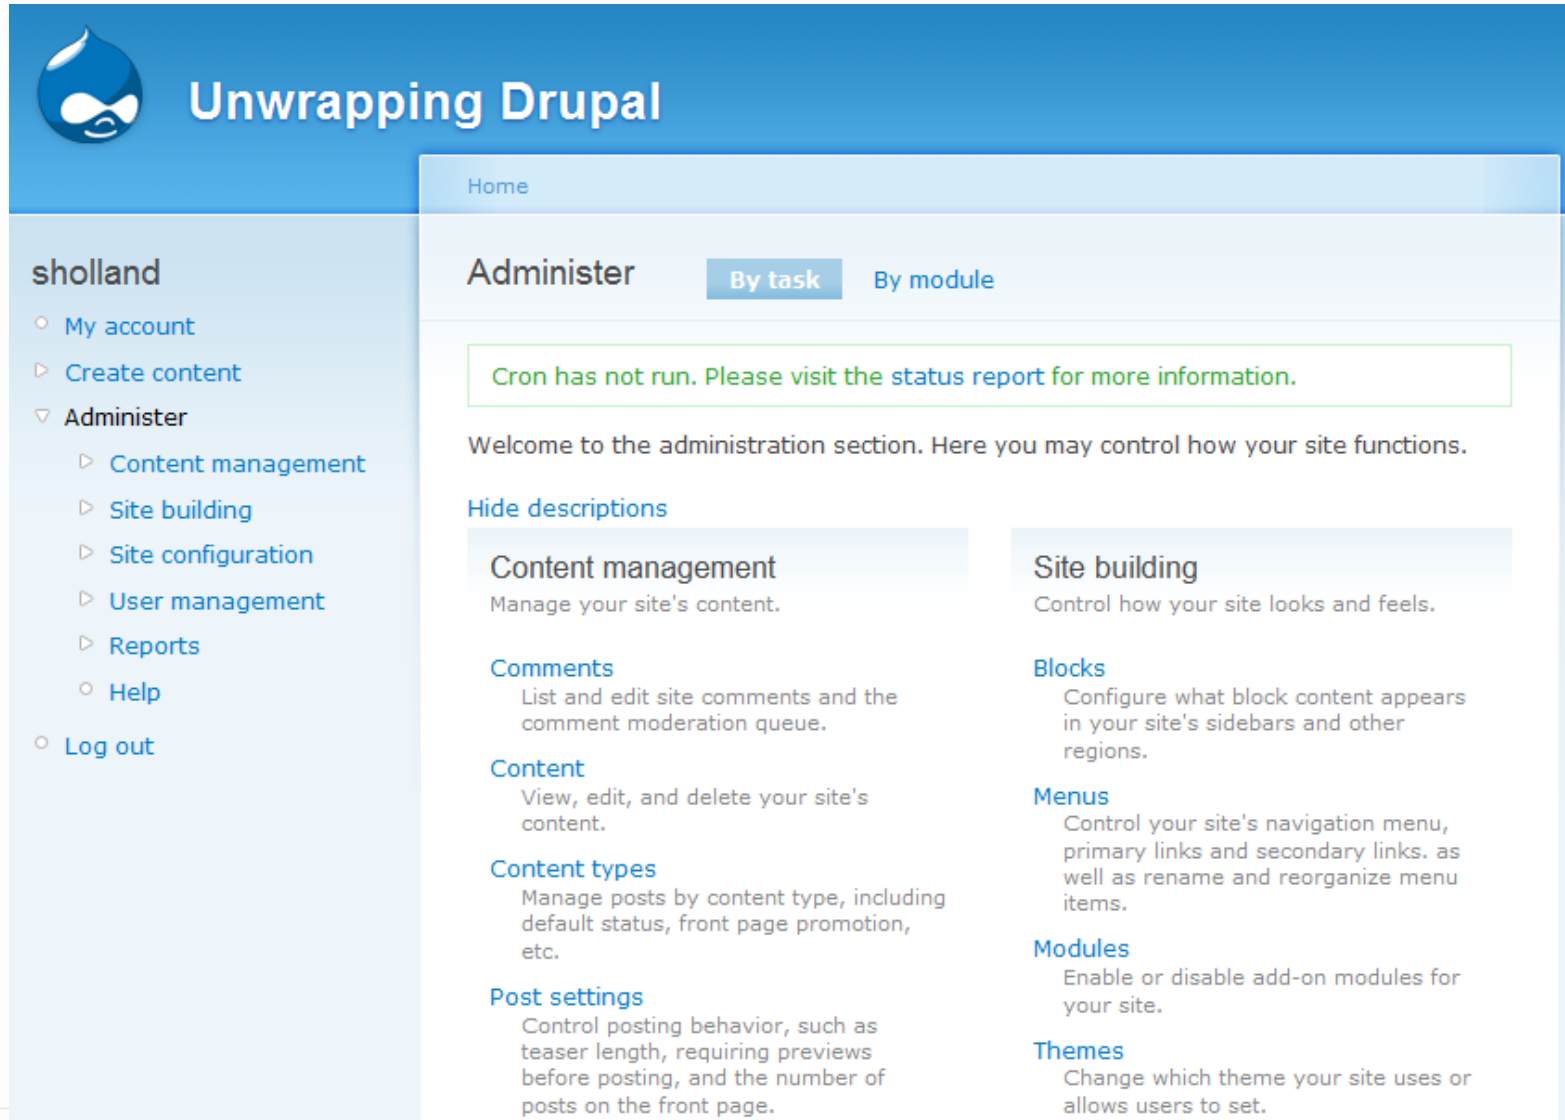

Input formats

Configure how content input by users is filtered, including allowed HTML tags. Also allows enabling of module-provided filters.

Logging and alerts

Settings for logging and alerts modules. Various modules can route Drupal's

Default Installation - Initial Homepage D7

The screenshot shows the Drupal 7 administration interface. At the top is a dark navigation bar with links: Dashboard, Content, Structure, Appearance, People, Modules, Configuration, Reports, Help. On the right of this bar, it says "Hello sholland" and "Log out". Below this is a secondary bar with "Add content" and "Find content" on the left, and "Edit shortcuts" on the right. The main header is blue and features the Drupal logo on the left, the text "Unwrapping Drupal 7" in the center, and "My account" and "Log out" on the right. A "Home" button is located below the logo. A search box is positioned on the left side of the main content area. The central heading reads "Welcome to Unwrapping" followed by the message "No front page content has been created yet." and a link "Add new content". On the right, a user menu for "sholland" is open, listing options: My account, Create content, Administer (with sub-items: Content management, Site building, Site configuration, User management, Reports), Help, and Log out. A "Navigation" block on the left contains a link "Add content".

Create content

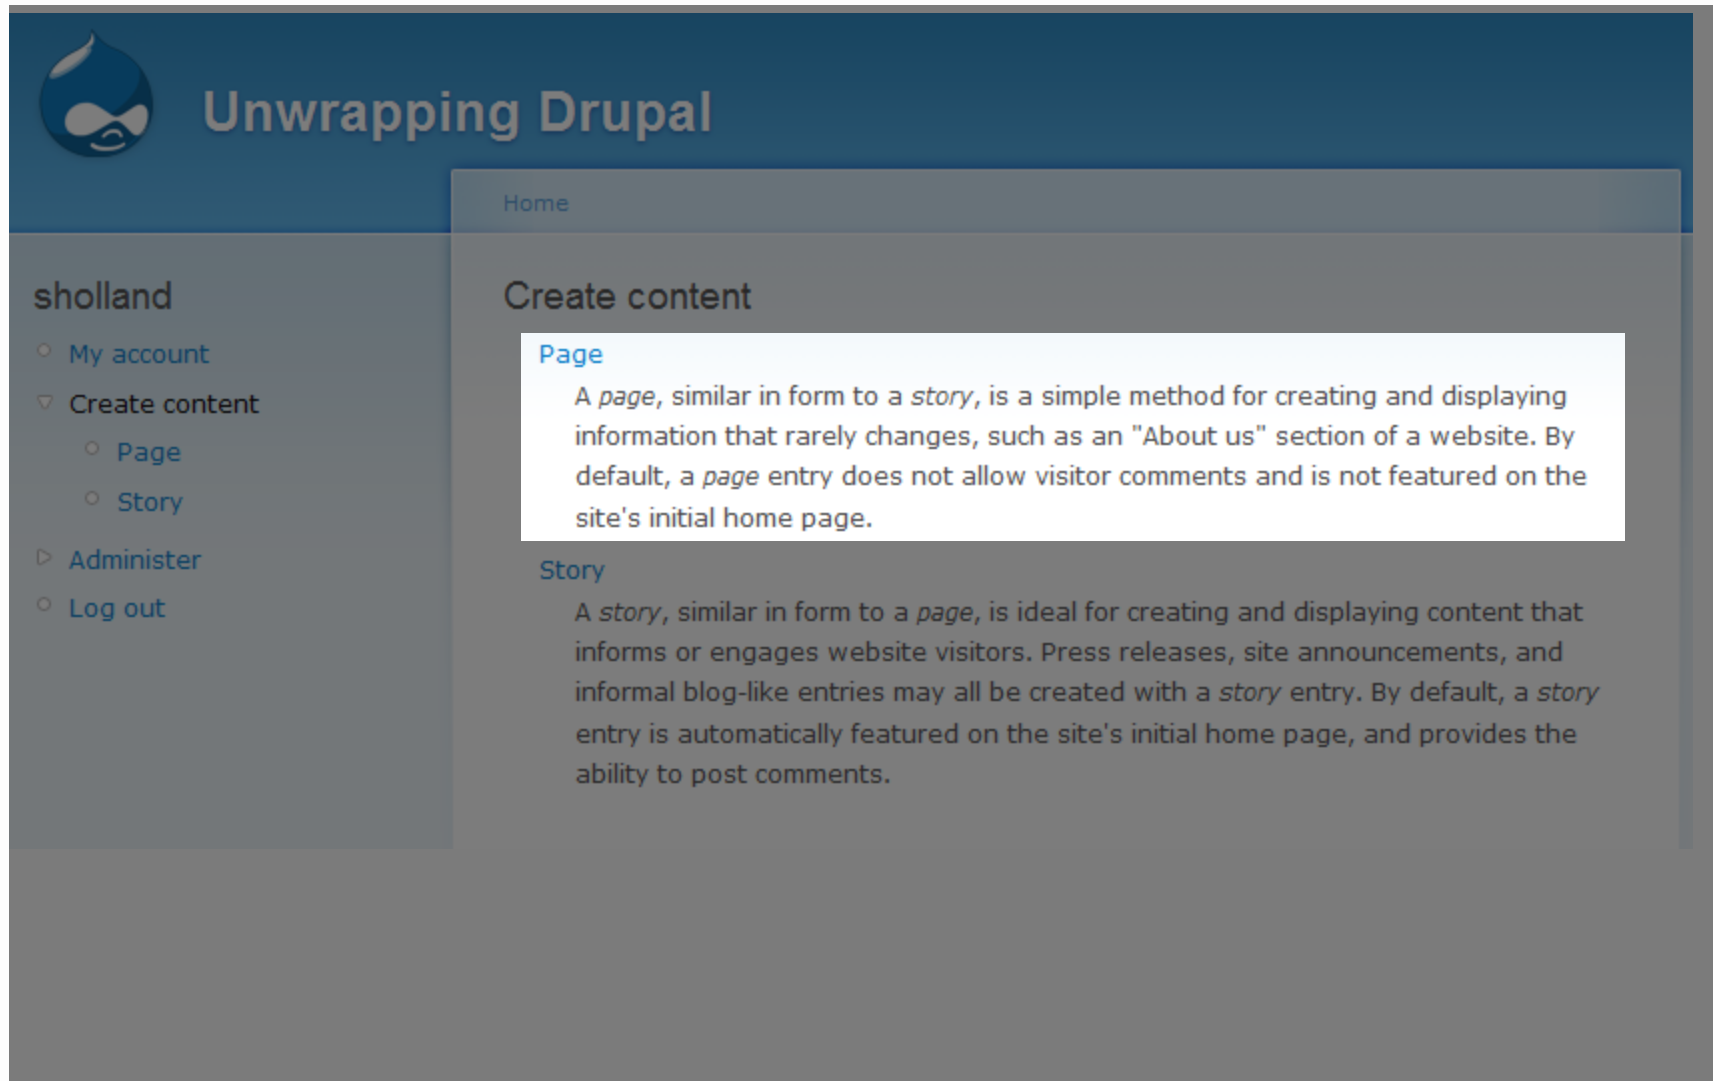

Page

A *page*, similar in form to a *story*, is a simple method for creating and displaying information that rarely changes, such as an "About us" section of a website. By default, a *page* entry does not allow visitor comments and is not featured on the site's initial home page.

Story

A *story*, similar in form to a *page*, is ideal for creating and displaying content that informs or engages website visitors. Press releases, site announcements, and informal blog-like entries may all be created with a *story* entry. By default, a *story* entry is automatically featured on the site's initial home page, and provides the ability to post comments.

Default Installation - Content Creation

Unwrapping Drupal Webinar

Tue, 11/30/2010 - 13:17 — sholland

Thinking about adopting Drupal, but not sure where to begin? Decided to install Drupal but were confused on where to go from there? Join TerpSys as we "unwrap" Drupal this holiday season and showcase how your organization can best leverage the powers of this open source software.

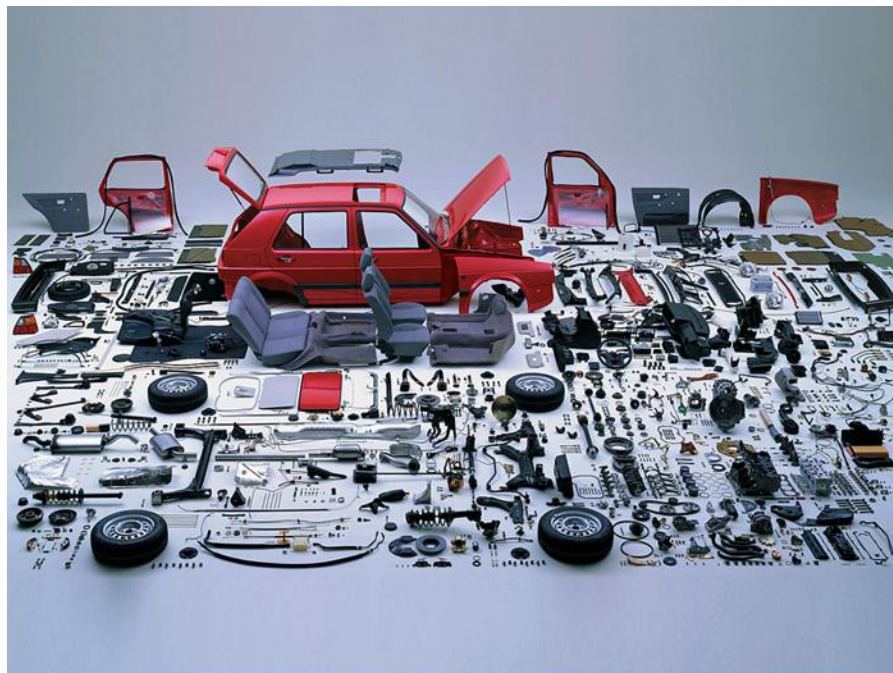

This webinar will outline:

- What sets Drupal apart from other systems
- Key skills needed for a successful project
- Common pitfalls that organizations encounter
- Speaking Drupalese - What you need to know about Drupal lingo
- Exploring what comes with a fresh install
- Recommended modules to get started on your site
- Other organizations employing Drupal

So What Do You Get Out of the Box?

“Starter Kit”

- Set of Starter Modules
- Starter Themes
- Basic Content Types

Question Break
